experience

Lead Web Dev, UI Designer & User Advocate July 2011 - Present
Web Developer & UI Designer April 2010 - July 2011
Loop Management, LLC

Responsible for the design and front-end development of several large web applications for both internal and external use in an Agile work environment. Core technologies used are C# ASP.NET, HTML, CSS and JavaScript.

Lead a distributed team of 4 front-end web developers to collaborate with a larger team of backend engineers, Product and Project Managers, as well as various stakeholders throughout the company.

Perform code and design reviews, enforcing standards for maintainability, consistence and quality. Complete team member evaluations and conduct interviews for hiring.

From conception to completion, contribute to the definition, design and rapid development of features and products.

Passionately take ownership of projects. Emphasize web standards, simplicity and usability for user-interface design, data visualization, and user workflow.

Senior Web Designer & Dev / Project Manager 2006 - April 2010
Team Leader, 2005 2005 - April 2010
Web Designer & Developer 2003 - 2005
Digital Eel, Inc

Designed, developed and maintained hundreds of static and database-driven web sites. Streamlined development and maintenance of web sites by enforcing good design and coding practices. Effective client engagement, communication and expectation management.
